June 20-21	Lakelands Archery Group
July 11-12	Carolina Arrow Sports
August 1-2	South Carolina State Championship Robinhood Archery

ASA 3-D archery features competitive rounds of 20 lifelike, three-dimensional animal targets made of foam. The scoring rings are not visible from the shooting stake and binoculars are allowed. Advanced archers must determine the distance to the target, pick a good aiming point, and execute the shot. The ASA was the first archery organization to implement a speed limit for safety and to establish a level playing field for 3-D competition. Beginning in 2007, the ASA was the first national organization to incorporate known distance competition to provide competitors with another option for competing in 3-D archery.

If you are a target archer, bowhunter or just interested in getting started in archery, the ASA will provide you the opportunity to meet and share experiences with new friends, learn about the latest equipment, improve your archery skills, and spend time with great people.

Competitors in all classes must be current members of ASA to participate and to be eligible for trophies at an ASA State Championship. All shooters eligible to participate in ASA State Championships will have qualified by shooting in at least one State Qualifier in that state. Shooters that qualify for, and compete in, an ASA Federation State Championship will automatically win a berth to the ASA Pro/Am Classic. For information about the ASA Federation go to <http://www.asaarchery.com/IP/index.php/asa-federation>.
